

## **Dental insurance dental**

The smart way to avoid holes in your budget –  
for all ages.

# dental

## All the benefits you need.

---

### Holding dental costs down

#### dental makes generous contributions to:

- Dental treatment
- Laboratory services
- Prevention and check ups

Cover is still provided if you are treated in a neighbouring country of Switzerland!

#### dental leaves no gaps open:

- No charge and no health examination\* for children up to age three
- Preventive care and check ups including x-rays for healthy teeth – up to CHF 100 per calendar year

### Comprehensive and dependable

Normally, entitlement to **dental** benefits already begins after 6 months. For prosthetic treatment, such as crowns, bridges, dentures, pivot teeth, treatment of poor tooth and jaw positions etc, the waiting time is twelve months.

The insurance can only be taken out and managed in conjunction with at least one of the following insurance:

basic insurance, **plus**, **premium**, **hospita**, **salto**, **general supplement** or **private supplement**.

\* The premium is payable from 1 January of the year in which the child turns four.

### Which gap do you wish to fill?

#### You may choose between these dental variants:

- 50 %, max. CHF 1,000/calendar year
- 75 %, max. CHF 1,500/calendar year
- 75 %, max. CHF 5,000/calendar year

### What would you like to do now?

I would like to arrange a consultation with Sympany and receive a non-binding quote:
